Wes,

Chris Ruhl called yesterday too. Steve and I left him a message. The facility is registered with EPA for GrazonNext HL which it repackages/distributes. SSTS gives past annual production numbers but it does not indicate how much is on site at any given time. The production info is CBI so that info would have to be discussed between cleared personnel. Below is a manufacturer website for the product. Below the gray box is the link "Labels & Safety Data Sheets". Click on this link and you can see the label and Safety Data Sheet for GrazonNext HL.

<http://www.dowagro.com/range/products/grazonnext.htm>

I am flexing today so if you need to call me you can reach me at 972-978-5273.

Subject: West Fertilizer Company - Pesticides Information Request

Craig,

We are looking for any information regarding pesticides that may have been present at West Fertilizer Company during the recent fire and explosion.

Thanks for your assistance,

Wes McQuiddy
